

Applied Research and Innovation in TAFE

Webinar Series

Friday, 26 July, 2019 | 12.15 pm - 1.15 pm

The Victorian TAFE Association's applied research webinars series is a platform to showcase, celebrate and recognise the exceptional applied research and innovation activities taking place across Victoria's TAFE network.

About the Speakers

Belinda Kim

Teaching Quality Centre Manager
South West TAFE

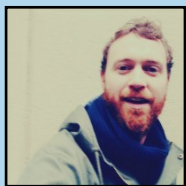

Belinda Kim has held positions of insight within federal, state and local government with more than 25 years experience in education across primary, secondary and higher education within Australia and abroad. Belinda has a diverse work passport including local to global competitive environments within community, tourism, hospitality and health services sectors.

At South West TAFE, Belinda is the Teaching Manager of the Teaching Quality Centre dedicated to supporting all teaching staff find strategically creative ways to meet industry skills gap solutions and enhance teaching methodology and delivery design.

Outside of work Belinda enjoys the earthiness of farm life. She is a yoga teacher, equine instructor, writes, and loves sharing life with her three children.

Alex Snow

Head of Research
Foundation for Young Australians

Alex Snow is a social researcher, solution designer, strategic communicator and all round people-person with over 15 years experience in education and social change across South East Asia and Australia.

At FYA, Alex is responsible for the direction and management of FYA's leading research projects, supporting the organisation's five-year strategic plan and Theory of Change core objectives.

In his spare time Alex is a workshop facilitator, lecturer and published author in the Masters of International Development program at RMIT University, a friend to a good electronic tune and a mildly obsessive Hawthorn Football Club fan.

Webinar Topic

New Work Mindset Project: supporting the workforce of the future to navigate in a changing landscape.

Overview

The exponential change to work is unlike any previous generations' experience, and has significant impacts on how we're training and reskilling for work.

So how can we support our workforce to prepare for a lifetime of careers instead of the career of a lifetime? In this new world of work, lifelong learning and an ability to navigate rapid change is essential. But it's not just workers who need to adapt — we need to create a system that cultivates lifelong learning and supports continuous up-skilling and reskilling to afford Australians the flexibility to move throughout their working lives.

This webinar will outline one initiative that aims to address these issues. Supported through the Victorian Government's Workforce Training Innovation Fund (WTIF), the New Work Mindset project identifies how we can support our workforce through new tools and training solutions to navigate this changing landscape and shift mindsets from linear careers to a more dynamic world of work where a portfolio of skills will be crucial to navigating the future.

This research has come to life in a collaboration between South West TAFE, the Foundation for Young Australians and aged care providers in South West Victoria.

The presentation will present findings from the research together with insights into the impact of the tools and training.

Who is invited?

The webinar is open to anyone interested in applied research and innovation.

How to register?

[Click here to register](#) or visit

<https://www.ivvy.com.au/event/R19061/>

Registrations close Thursday 25 July.

Cost

Attendance is **FREE**.
